Warp: 8/2 unmercised cotton - light blue - mill end.

Weft: Pattern and tabby: Multi-ended (8 single strands used as one) not plied. Multi-colored synthetic - mill end.

Sett: 12 epi Reed: 12 dent Sley: 1 per dent

Note: Fabric machine washed and machine dried. No ironing necessary.

Comments: The singles yarn used as weft and tabby made the material curl at the ends. This shows up especially on the small samples. On a large piece of plain weave the singles yarn made a tracking pattern.
